

Walk 14

(Town Centre to Pildacre Hill)

Ossett

Duration Allow 45 minutes
Distance 2.8 km / 1.8 miles
Terrain An easy, circular walk, mainly on pavements and good footpaths.

A Start at the Health Centre on New Street (pay & display parking nearby). Turn left and walk down Prospect Road, then right onto Queen Street. Turn left into West Wells Road.

B At the junction of West Wells Road, Blue Butts and West Wells Crescent walk straight ahead on to a section of the Old Coach Road.

C At the end of the road, cross over and bear slight left and pass through an iron gate onto a tarmac path (Old Colliery Lane). Superb views across the valley.

D Continue on the path until you reach a fork. Take the right fork and continue until you reach some steps and a small car park.

E

Climb the steps, turn right onto Pildacre Hill and follow the road along Pildacre Lane and into Wesley Street.

F Follow Wesley Street to the Town Centre. Explore the pedestrian area around the War Memorial and Town Hall and return to the Health Centre.

Runtlings

Use a pedometer or other wearable fitness device or app to keep track of your progress. It's satisfying to see how many steps you've taken, the distance you've covered and how many calories you've burned.

Ditch the car and walk instead. For short trips to the shops, work or school, walking is an ideal way to get active. Go for an evening stroll. You could make walking a family affair, starting a good habit for all the family. Combine walking with other modes of transport. If a journey is too long, why not combine it with another mode of transport? You could walk with the kids to school and get the bus back, or take the bus to work, jump off a stop early and walk the rest of the way. Make a plan and set yourself goals. Start by walking 10 minutes a day, and build yourself up. Ease yourself in gently, get used to walking a certain distance and then add to it. Find a walking buddy. If you commit to meet a friend you are more likely to stick to it. Alternatively, a local walking group (advertised on www.walkingforhealth.org.uk) might suit you better.

Fit walking into your daily routine

Remember it can: Try to walk for 30 minutes every day.

- Regular physical activity dramatically cuts the risk of developing heart disease, diabetes, obesity and some cancers. It also reduces cholesterol, lowers high blood pressure and is good for our sense of wellbeing.
 - brisk walking burns as many calories as jogging over the same distance
 - it strengthens muscles, bones and joints
 - walking improves your mood and boosts confidence
 - it helps maintain flexibility and co-ordination as you get older.
- It's good for your health
- Regular physical activity dramatically cuts the risk of developing heart disease, diabetes, obesity and some cancers. It also reduces cholesterol, lowers high blood pressure and is good for our sense of wellbeing.

- Remember it can:
- Make you feel good
 - Give you more energy
 - Help you sleep better
 - Help you reduce stress
 - Keep your heart strong
 - Reduce blood pressure
 - Help manage your weight
 - Improve your life expectancy
- Wakefield Council's Health Improvement Team is working to encourage people to carry out more of their journeys on foot or by cycle to improve the environment and their health.

Walking is one of the easiest ways to be physically active – it doesn't even have to feel like exercise. All you need is a comfy pair of shoes, and once you get moving you'll feel fitter, healthier and happier.

Walking doesn't cost a penny, and fitting it into your daily routine is easy when you follow our top tips.

Walk for fun

Walking enables you to explore your local area on foot and get to know your community. Why not set yourself a challenge to walk in all your local parks and walking paths?

It's great for our planet

Walking doesn't leave a carbon footprint, just your own. And if we all swapped one weekly drive for walking, traffic would reduce by at least 10%. Imagine that. Safer and quieter streets for children to play on and for people to socialise in.
